SCOPE OF WORK OVERVIEW

Kimley-Horn and Associates, Inc. ("Consultant") understands the City of Bastrop ("City" or "Client") is proposing to update the City’s Transportation Master Plan (TMP) last adopted in 2017 and the Thoroughfare Plan component of the TMP last updated in 2019. This project consists of providing professional services for updates to the city’s Transportation Master Plan document to reflect changes in the City since the 2017 update, including the new B3 Code and changes based on development that has occurred or been entitled. Updates to the location and type of roadway facilities, road alignments, cross sections, and specific projects needed to address current and projected long-term growth in the City of Bastrop and its extraterritorial jurisdiction. In addition, this project consists of a reassessment of and reprioritization of projects for roadways, identification and prioritization of intersection improvements, and identification of high priority sidewalk, shared use path, and trail facilities. It is understood that the TMP Update will run concurrently with a Comprehensive Plan Update so that this project can leverage public engagement opportunities occurring with the Comprehensive Plan Update.

Based on this understanding, Consultant will provide the services specifically set forth below, divided into 7 tasks:

Task 1: Project Management and Administration
Task 2: Public Engagement
Task 3: Needs Assessment
Task 4: Intersection Analysis
Task 5: Thoroughfare Plan and Cross Sections
Task 6: Project Prioritization
Task 7: Documentation

Task 1. Project Management and Administration

The Consultant anticipates attendance at up to six (6) in-person meetings with the City, and an additional up to six (6) virtual meetings, as needed, over the duration of the project. Meetings between staff and the consultant will be at minimum monthly for the TMP Update.

The Consultant will present the draft report to one (1) stakeholder group and to the Planning and Zoning Commission prior to two (2) meetings with City Council for adoption of the TMP Update. Each of the meetings with the stakeholder group, Planning and Zoning, and City Council will include up to two (2) team members from the Consultant.

The Consultant will prepare progress reports monthly to be submitted with invoices for the duration of the project, anticipated to be ten (10) months.

All meetings related to an advisory committee, pop-up meetings, and public meetings are included in Task 2.

Task 2. Public Engagement

The Consultant will develop a plan for community and stakeholder outreach and a strategy for communication. The Public Involvement Plan (PIP) will incorporate outreach and engagement methods that foster meaningful participation and provide needed input for the successful development and implementation of the Transportation Master Plan. The PIP will also identify a list of key stakeholders. The
engagement strategy will leverage existing communication channels and identify any supplemental strategies needed to educate and engage the community on the project. The Consultant will work closely with participating staff to ensure communication and outreach strategies are integrated and coordinated with concurrent related efforts and build on Comprehensive Plan outreach and feedback received from the Comprehensive Plan Advisory Committee (CPAC). It is anticipated that the Consultant will participate in up to two (2) of the CPAC meetings to gather feedback on TMP goals and objectives and recommended projects.

The PIP will be presented to the City for review and comment and one (1) round of comments addressed. The City will be responsible for providing a venue for any public meetings or space at existing public events in the form of booths or other spaces for engagement.

**Task 2.1 Online Engagement**

An online hub for engagement will be maintained and operated by the Consultant during the duration of the project. The Consultant will utilize Social Pinpoint for the online hub. The online hub will host a variety of activities, including an interactive map for comments, an online survey, document library of draft or interim deliverables, and videos if recorded by the City with support from the Consultant. It is anticipated that the Social Pinpoint online hub will be updated in alignment with the public meetings identified in Task 2.2. Several of the activities (such as interactive maps, surveys, and other engagement efforts) that will appear on the online hub will also be offered at public meetings in Task 2.2 or at CPAC meetings and feedback combined and reported back in engagement summaries at regularly recurring meetings between the City and Consultant identified in Task 1.

**Social Media.** The City will manage the social media for the TMP and the Consultant will provide material/posts for up to eight (8) social media posts for the duration of the project.

**Task 2.2 Public Meetings**

The Consultant will utilize digital and in-person touchpoints to engage the community, which will include two public events. The Consultant will prepare the materials for each event. The City will secure the venue for each event. If food or entertainment is desired, the City will secure those items for each event. The following touchpoints are anticipated with the community and key stakeholders during the plan development to complement online engagement activities:

Meeting #1: Identify Needs: A planned community event to gather input on the location specific needs and goals of the community for mobility.

Meeting #2: Draft Plan & Projects: A planned community event to present the draft Transportation Master Plan, gather public input, and outline the next steps in the process.

The Consultant will have at least three (3) representatives in attendance at the two (2) in-person events identified above. The events are anticipated to be pop-up events coincident with another existing community event to maximize participation and activities information supplemented with and coordinated with online engagement in Task 2.1.

**Task 2.3 Goals and Objectives**

The Consultant will utilize the online engagement and meetings with the CPAC to update transportation goals and objectives from the 2017 TMP. The transportation goals and plan objectives will serve as a basis for the development of the Transportation Master Plan. The online survey will be strategically developed to solicit community input specifically related to goals and priorities. Weights for each priority will be determined through activities with the CPAC and later compared to the community priorities.
gathered at the public meetings to calibrate those set by the CPAC. These goals and objectives will inform project prioritization in Task 5.

**Task 3. Needs Assessment**

**Task 3.1 Data Collection**
The Consultant will coordinate with the City or outside agencies to obtain available GIS data for base mapping and maps within the existing TMP. The GIS files will be in ESRI ArcGIS10.x format and projected in NAD 83 State Plane, Central Texas Zone coordinates. In addition, the Consultant will coordinate with the City on any available traffic count information from the past three (3) calendar years and substitute with information from TxDOT’s statewide planning map, where available.

The Consultant will collect up to 20 turning movement count locations in the AM & PM peak period in support of analysis in Task 4.

**Task 3.2 Existing Conditions Review**
The Consultant will coordinate with the City to create an inventory of existing roadways (arterials and collectors only) based on the latest adopted Thoroughfare Plan. Work completed as part of the Roadway Impact Fee study will be used as a baseline for evaluations and information added to this base from the ETJ. The inventory will be completed using aerial photography. This existing inventory database is anticipated to show the number of lanes, condition (ultimate or not) and if it matches the ultimate condition (number of lanes and median presence). The Consultant anticipates spending one day (two employees) in the City verifying the existing network. As part of this field work an existing needs assessment will be developed. The needs assessment will identify potential new connections, capacity expansions, intersection improvements, maintenance issues, and opportunities for trails or bike facilities.

The Consultant will develop a database of crash information for the past 3 years for the entire City’s street network including both frequency and severity information based on the TxDOT Crash Reporting Information System (CRIS) and supplemented with local police department data as necessary for fatalities and crashes involving pedestrians and bikes. This information will be used in development of recommendations at both intersections in Task 4 and in prioritization of projects in Task 6.

**Task 3.3 Policy Review**
The Consultant will review transportation policies and codes that apply to the development of transportation systems. The current Traffic Impact Analysis (TIA) policy and transportation requirements of development from the B3 Code will be reviewed as part of this assessment. The Consultant will compile a list and reference each policy or ordinance that is applicable to the project. Inconsistencies and gaps in the list will be identified. Based on the results of the evaluation, the Consultant will meet with City staff to compare evaluations and recommendations. These policies will be identified in the Transportation Master Plan update, but not resolved or developed except for an updated TIA policy requirements to be consistent with the Transportation Impact Fee study.

**Task 3.4 Review of Documents and Plans**
The Consultant will review and become familiar with the documents and plans that serve as a reference throughout the project. It is anticipated that this information will be synthesized into a summary of past plans and incorporated into the final report.

This task includes an early deliverable as a standalone document titled the “State of Bastrop’s Transportation” to be included in the online document hub and shared with stakeholders.
Task 4. Intersection Analysis

The Consultant will develop a Synchro™ traffic model that includes up to twenty (20) traffic signals and/or unsignalized intersections to model existing conditions and analyze the performance of intersections to identify short-term improvements that can be implemented in the near-term. The Consultant will work with the City to establish intersection-specific and corridor-specific measures of effectiveness that will be utilized to evaluate the performance of individual intersections and corridors. Using this model, the Consultant will prepare a Project Traffic Analysis Report to document existing conditions, intersection and corridor performance, and recommendations. Existing conditions will be based on field review and turning movements collected in Task 3.1 and Task 3.2.

Task 5. Thoroughfare Plan and Cross Sections

Task 5.1 Thoroughfare Plan
The Consultant will review the City’s existing thoroughfare plan and identify any conflicts between the existing plan and needs assessment from Task 3 to make informed decisions when updating the existing plan. The Consultant will review the context and function of existing roadways to verify the classifications are appropriate for the existing and projected travel volumes, where the roadways connect, and adjacent land uses.

The Consultant will perform a road sizing analysis on up to ten (10) road segments to be determined with the City to evaluate existing and projected future daily traffic demand based on an annual average growth rate and known large developments to be built within a 10-year planning window. The Consultant will utilize this information to evaluate where roadway widening may be appropriate or where a new roadway alignment may be needed to improve connectivity and mobility within the area as inputs to thoroughfare plan updates.

Functional classification will be altered, and alignments changed, or new alignments created based on the results of Task 3 and public engagement on needs.

Task 5.2 Pedestrian and Bicycle Network
The Consultant will evaluate the City’s existing pedestrian and bicycle network to identify existing barriers, areas where these users are at high risk, areas where there is a high demand for these users, and areas where the network is incomplete. High demand areas will be determined based on staff, committee, and stakeholder feedback and the Needs Assessment performed in Task 2. A set of top ten (10) priority projects will be developed inclusive of sidewalks, roadway cross section alterations for bike facilities, off street trails, or on-street shared-use paths. Projects will include a planning level cost for inclusion in the Short-term Capital Plan in Task 5.3.

Task 5.3 Cross Sections
The Consultant will evaluate existing cross sections within the right-of-way and analyze the various elements of a street to ensure adequate space is allotted for pedestrian, bicycle, and motor vehicle users. The cross-section modernization process will be an iterative process that focuses on balancing functional classification and context. Resulting cross sections and changes to right-of-way required at intersections that are recommended for adoption will be prepared as a draft Code amendment by the Consultant to be presented simultaneously with the TMP for adoption to eliminate any conflicts between the Code and TMP. The Consultant will develop standards for additional right-of-way near intersections to preserve space for turn lanes and roundabouts, when anticipated.
**Task 6. Project Prioritization**

**Task 6.1 CIP Project List Development**

The Consultant will review current TMP project lists to determine if any projects are completed, under development, or no longer feasible and update the status of projects. The Consultant will consolidate the existing project lists for roadways, intersections, pedestrians, bikes, transit, and system management into one Transportation Capital Improvement Plan (CIP), removing overlaps between projects, and updating planning level cost estimates based on revisions to cross sections, project scopes, and updated construction cost information publicly available.

**Task 6.2 CIP Project Prioritization**

Using goals and objectives identified in Task 2.3, the Consultant will work with City staff to develop priorities for transportation project evaluation and prioritization for roadway projects. The Consultant will develop a prioritization tool to rank projects based on up to six (6) mobility priorities and weighting each priority with measures of effectiveness. The results of the exercises in this subtask will be used to develop a prioritization tool for ranking projects in a Microsoft Excel spreadsheet. Standalone sidewalk, bike, trail, intersection and other projects will be shown and dollars allocated on an annual basis in the CIP, but not prioritized as part of this effort. The resulting prioritized project list will include a subset of projects anticipated to be completed in a 10-year planning window in support of Task 3.

**Task 7. Documentation**

The Consultant will incorporate the findings, recommendations, and public involvement into a report to replace the current TMP and submit a draft final document for review by the Client. A copy of the report will be provided in electronic format, including all maps and data tables, in the format specified.

The Consultant will address one (1) set of review comments and prepare a final document and submit in electronic format for support in an adoption process.

**Additional Services**

Any services not specifically provided for in the above scope will be considered additional services and can be performed at our then current hourly rates. Additional services we can provide include, but are not limited to, the following:

- Additional meetings with staff;
- Additional public meetings;
- Additional sets of revisions to the plan document;

CITY OF BASTROP, GENERAL SERVICES CONTRACT/Page 12
AGENDA MEMORANDUM

Meeting Date: June 12, 2023

Agenda Item: Discussion and possible action regarding adoption of procedures and metrics of the BEDC’s Revolving Loan Fund; discussion and possible action regarding the BEDC providing matching funds for the program.

Submitted by: Sylvia Carrillo, ICMA-CM, CPM, City Manager & Interim Executive Director Bastrop Economic Development Corporation

In November 2022, Roscoe State Bank awarded the BEDC with $20,000, which is the first of five donations totaling $100,000 over the course of five years.

The President of Roscoe requested that these funds be used in a way to assist businesses, specifically small businesses. The BEDC Executive Director and staff proposed using the funds for a revolving loan fund program, and the Roscoe representatives wholeheartedly agreed.

This program would contribute to the City of Bastrop by assisting small businesses and entrepreneurs in starting or expanding businesses, thereby creating a direct overall improvement/stimulus in the local economy.

The BEDC Staff drafted a new program policy using only the $20,000 donated by Roscoe State Bank, which was approved at the board meeting of February 27, 2023.

BEDC Staff were asked to edit and add metrics to the policy. Please see attached. There has also been continued discussion about the BEDC allocating additional funding to the program, which requires input and approval by the BEDC Board.

Attachment: Redlined Revolving Loan Fund Program Policy and Application

Recommendation – Discuss providing matching funds for the program and approve the edited policy.

[RECOMMENDED MOTION] – I make the motion to approve the edits to the RLF policy and to allocate $__________ of BEDC funds to the program.
I. GENERAL POLICY

The Bastrop Revolving Loan Fund (RLF) Program provides businesses with direct loans. As the RLF receives the principal and interest from outstanding loans, the money is made available to another borrower. This recycling of funds makes RLFs particularly valuable for small businesses and entrepreneurs that lack the equity typically required by financial institutions to start or grow their business. This RLF program provides low-interest financing to assist with business start-ups and the expansion of existing businesses for the purposes of creating jobs, increasing sales tax producing revenue, and enhancing private capital investment within the City of Bastrop, Texas.

II. ECONOMIC OBJECTIVES

The Bastrop Economic Development Corporation (BEDC) will consider applications for the RLF, which demonstrate the achievement of one or more of the following objectives:

1. Enhance the City's economic base through property tax and sales tax.

4. Cash flow analysis
5. Other financial documents as requested

An initial meeting with the Applicant and BEDC staff will be set up to review the request. The Applicant will be invited to the meeting to present to the committee. Applications shall require a majority vote of the Committee for recommendation to proceed to the BEDC Board. During the next regularly scheduled BEDC Board meeting, the Board will formally approve/deny the application. If an application is denied, BEDC staff shall have the option to continue assisting the Applicant in gathering additional information for resubmittal.

Nothing in this Policy shall require the BEDC to make a loan to a business that meets the requirements of the Policy. The BEDC is not required to make a loan or provide any financial assistance to a business that meets the requirements of this Policy unless the BEDC in its sole discretion determines that it is in the BEDC and City of Bastrop’s best interest to make a loan. Each application will be reviewed on a case-by-case basis.
NOTE: Information that the Applicant believes to be confidential should be clearly marked “Confidential” on each page containing confidential information. The BEDC shall take every precaution allowed by law to maintain confidentiality.

- To use RLF money only to pay the cost of services and materials necessary to complete the project or activity, or purchase the equipment for which the loan was awarded.
- To permit inspections by persons authorized by the BEDC of all projects and properties assisted with RLFs. Related project materials shall also be open to inspections which include but may not be limited to materials and equipment. Requests for inspection shall be complied with by the Recipient.
- To maintain records on the projects as may be requested by the BEDC. These files shall be maintained as long as the loan is active or for at least three (3) years after completion of the work for which the loan has been obtained, whichever is longer.
- The business must maintain an actual physical presence within the city limits of Bastrop, Texas, for 5 years.

**XIII. POST-CLOSING AND MONITORING OF RLFs**

**General Procedures**

   1) All closing documents.
   2) A log of all conversations and correspondence relating to the loan.
   3) A master follow-up file to ensure loan monitoring functions are performed on a timely basis.
2. The calculation of principal and interest and monthly payment reports will be executed at the time of the loan closing by the Lender.
3. Fund management services will be provided by the Lender. The BEDC may assist with loan packaging, underwriting, and related marketing services for the Fund.

**Monitoring**

Lender will be responsible for collecting and maintaining evidence of ongoing compliance with
any loan requirements, insurance, financial reporting, and any special conditions of the original agreement. An annual report of projects financed through this program will be provided to the BEDC and BEDC Board each year.

XIV. DEFAULT

In the event the Recipient is in default on any of the terms and conditions of the RLF agreement, all sums due and owing, including penalties, shall, at the BEDC’s option, become due and payable. To exercise this option, the BEDC Attorney shall prepare a written notice to the Recipient. The notice shall specify the following:

1. The default.
2. The action required to cure the default.
3. A date, not less than thirty (30) days from the date of the notice, by which the default must be cured to avoid foreclosure or other corrective action.
4. Any penalties incurred as a result of the default.

XV. USE OF LOAN REPAYMENTS AND REPORTING

Repaid loans shall be redeposited in the RLF account and used in a manner consistent with these policies and procedures. A separate accounting record for each loan shall be kept to account for all funds loaned.

XVI. PERFORMANCE ASSESSMENT PROCESS

The BEDC staff shall annually review the goals and objectives of the RLF to verify it is meeting its objectives. If staff determines the program requires modification, staff will prepare and present any modifications to the Committee for review, with final approval by the BEDC Board.

Agenda Item: 3.3

AGENDA MEMORANDUM

Meeting Date: June 12, 2023

Agenda Item: Discussion and possible action on approval of settlement agreement with Jorgenson Consulting.

Submitted by: Sylvia Carrillo, ICMA-CM, CPM, City Manager & Interim Executive Director
Bastrop Economic Development Corporation

At a previous board meeting, legal counsel was asked to negotiate a settlement agreement with Jorgenson Consulting.

Recommendation – Discuss settlement agreement.

[RECOMMENDED MOTIONS] – I make the motion to authorize the Board Chair (or Interim Executive Director) to approve the settlement agreement on behalf of the BEDC.
AGENDA MEMORANDUM

Meeting Date: June 12, 2023

Agenda Item: The BEDC Board will meet in a budget workshop session to review and discuss all matters related to the BEDC’s draft budget for fiscal year 2023/2024, including discussion and possible action on education and workforce development programs, infrastructure projects, and proposed capital improvement projects which can legally be funded by Type B Sales Tax.

Submitted by: Sylvia Carrillo, ICMA-CM, CPM, City Manager and Interim Executive Director
Bastrop Economic Development Corporation

Each fiscal year, the BEDC’s budget is approved by the Board and then submitted to the City’s Chief Financial Officer (CFO) for inclusion in the City of Bastrop’s budget presentation to City Council.

The CFO needs BEDC’s preliminary numbers for the FY2024 budget by the end of June, for a July 25th City Council budget meeting. The Council then gives the budget final approval in September.

This workshop allows us to have those preliminary budget discussions at the Board level.

Note: The negative revenues/expenses amount is a drawdown from fund balance, and most are a carryover from last fiscal year.

Recommendation – Discuss the BEDC’s FY 2023/2024 budget.

[RECOMMENDED MOTIONS] – No motion required.

Draft BEDC Budget
06/12/2023
Summary: This is an “at-a-glance” summary of the BEDC proposed FY24 budget.

2024 BEDC Proposed Revenues - $4,746,140

2024 BEDC Proposed Expenses - $10,350,970

All of the changes in the proposed FY24 budget are explained in detail on a separate page.

Budgeted revenues are up by 12.6%. Total budgeted expenses have increased by 10%. Overall, most budgeted expenses were reduced, with some exceptions:

- City Projects/Services
- Debt Service
- Miscellaneous/Contingency
- Notes:
  - Each fiscal year, any unexpended funds roll over into BEDC’s fund balance.
  - The negative revenues/expenses amount is a drawdown from fund balance, and most are a carryover from last fiscal year.
Summary: Bastrop EDC revenues relate to funds that the BEDC receives each fiscal year. The 2024 proposed budget has been increased by $532,231 or 13% from 2023.

Increases - $532,231

- Sales tax
  - The City’s CFO has budgeted an increase of 7%, or $275,051 as compared to last FY.
- Interest Income
  - The CFO has budgeted an increase of 1,577%, or $235,000 in interest income as compared to last FY’s budget.
- Lease Agreement (Cell Tower)
  - This income has increased slightly, from $15,870 to $18,050. (Please see notes below.)
- “BEDC Grant Receipts”
  - Increased by $20,000 from last year’s budget, as those funds were not expected at the time of budget preparation last fiscal year. (Please see notes below.)

Notes

- Sales tax projections and interest income are inputted by the City’s CFO.
- “Lease Agreement (Cell Tower)” income is received from an agreement with American Tower. They have a land lease for a cell tower in the Business Park, dating back to 2010. The amount increases by 15% every five years, and was last renewed in 2021 at $79,350 (or $15,870 a year). The BEDC also receives monthly revenue from each provider’s use of the tower, which works out to approximately $182/month.
- “BEDC Grant Receipts” are a donation from Roscoe State Bank/Cornerstone. They have pledged $20,000 for five years, for a total of $100,000, to be used to help support small businesses in the Bastrop area.
Summary: The Bastrop EDC administration budget includes the costs associated with the employment of six BEDC staff members. The 2024 proposed budget has been decreased by $106,356 or 12.5% from 2023.

2024 BEDC Proposed Budget Changes – ($106,356)

Summary

There were seven positions budgeted last fiscal year. Six positions would bring the BEDC to full staffing:

- Operations Manager (Angela Ryan)
- Business Development and Expansion Manager (Drew Chance)

- Executive Administrative Assistant (Ashley Allnutt)
- One additional position – TBD

Therefore, the seventh position was eliminated, decreasing the FY24 budget by $106,356.

Notes

All salary/benefit information is provided by Finance and HR, with the exception of auto allowance and pre-employment (relocation) expenses. These items are typically included in the Executive Director’s contract.

2024 BEDC Proposed Budget Changes – ($144,975)

Reduced Programs ($79,200)

- Marketing Travel ($10,000)
- Local/Misc. Ads & Sponsorships ($5,000)
- National/Regional Ads & Marketing ($35,000)
- Digital Advertising & Marketing ($24,200)
- Special Advertising & Marketing ($5,000)

Inactive Programs ($65,775)

- Promotional Rollover Prior Years ($65,775)
  - A Type B corporation is limited to spending no more than 10% of its corporate revenues in any given budget year for promotional purposes (LGC Section 505.153). The promotional rollover allowed for the carry-over of promotional revenues to be used in future years. Upon review, Staff determined that this item was unnecessary and was therefore eliminated.

Notes

- All marketing line items have been reduced to more accurately reflect actual expenditures in previous budget years.
- The cost of BEDC’s website falls under “Digital Advertising & Marketing.”
- “Business Development” covers such things as lunches with prospects and events to promote economic development within the Bastrop market.
- “Training Travel” includes any type of training, such as webinars, seminars, and TEDC sales tax workshops, for both BEDC staff and board members. The word “Travel” is a bit misleading and really should be deleted from the title.
Summary: The Bastrop EDC professional services budget includes funds for various services with professionals and firms for specific projects and tasks, along with engineering not related to a specific project (if needed). The 2024 proposed budget has been reduced by $25,500 or 10% from 2023.

  - Currently there are no professional services in this category.

Note
The “(Fiber) BIP Technology/MLK Infrastructure was the BEDC’s portion of the cost to install and maintain fiber in the Business Park. The amount was negotiated when the contract renewed last budget year. The BEDC has two years left on the commitment and then will owe nothing more.
Summary: The Bastrop EDC City project support budget includes funds for annual services from the City of Bastrop as well as certain projects that the BEDC is funding. The 2024 proposed budget has been increased by $2,090,000 or 75.5% from 2023.

2024 BEDC Proposed Budget Changes – ($600,000)

**Notes**

- There are two projects currently underway under 70-00-6711 (Business Industrial Park Improvements):
  - Financial Way is the infrastructure that extends Jackson over the “hump” of getting past the LCRA powerline easement as well as the underground high-pressure gas main. The road will extend slightly to the south of there, and then turn to the east. This road will allow Moca Ventures access to the tract of land they purchased. (Note: Moca agreed to pay for half of it.) (Budgeting $500,000 to complete next FY.)
  - The Jackson extension into the southern portion of the Business and Industrial Park will allow for the creation of shovel-ready lots in the undeveloped southern portions of the Park. So far, only the engineering for the project has been approved.

- The BEDC has been budgeting for the BIP Technology/MLK Infrastructure has been budgeting for this project since 2018. It would extend Technology Drive to the north, which would allow for development of a 10.5-acre tract which currently has no infrastructure to it. And the original plan was to extend Technology to MLK, thereby creating a second exit from the Park. Most of the engineering has been completed, but may change depending on South Street, detention design, etc.

BEDC Staff will need the Board’s input on both the southern and northern extensions of infrastructure in the Business Park in order to determine the amount of necessary funds for the FY24 budget.
**Summary:** The Bastrop EDC debt service budget includes the funds necessary to pay the BEDC’s debt for the upcoming fiscal year. The 2024 proposed budget has been increased by $3,613 or 1.3% from 2023.
