About The Retail Coach

The Retail Coach is a national retail recruitment and development firm that combines strategy, technology, and creative expertise to develop and deliver high-impact retail recruitment and development plans to local governments, chambers of commerce, economic development organizations and private developers.

Through its unique Retail360® Process, The Retail Coach offers a dynamic system of products and services that better enable communities to maximize their retail development potential.

Retail:360® Process

Providing more than simple data reports of psychographic and Psychographic trends, The Retail Coach goes well beyond other retail consulting and market research firms’ offerings by combining current national and statewide Psychographics and trend data with real-world, “on-the-ground” information gathered through extensive visits to our clients’ communities. Every community is different, and there is no “one size fits all” retail recruitment solution. Compiling the gathered data into client-tailored information packets that are uniquely designed for, and targeted to, specific retailers and restaurants who meet the community’s needs help assure our clients that they are receiving the latest and best information for targeted retail recruitment efforts — all with personal service and coaching guidance that continues beyond the initial project scope and timeline.

Our Retail:360® Process assures that communities get timely, accurate and relevant information. Translating that data into the information that retailers need and seek assures our clients even better possibilities for tremendous retail growth and success.

WHO ARE WE?
Southern Satellites is the second largest market found in rural settlements but within metropolitan areas located primarily in the South. This market is typically nondiverse, slightly older, settled married-couple families, who own their homes. Two-thirds of the homes are single-family structures; almost a third are mobile homes. Median household income and home value are below average. Workers are employed in a variety of industries, such as manufacturing, health care, retail trade, and construction, with higher proportions in mining and agriculture than the US. Residents enjoy country living, preferring outdoor activities and DIY home projects.

OUR NEIGHBORHOOD
• About 78% of households are owned.
• Married couples with no children are the dominant household type, with a number of multigenerational households (Index 112).
• Most are single-family homes (67%), with a number of mobile homes (Index 509).
• Most housing units were built in 1970 or later.
• Most households own 1 or 2 vehicles, but owning 3+ vehicles is common (Index 144).

SOCIOECONOMIC TRAITS
• Education: almost 40% have a high school diploma only (Index 140); 45% have college education (Index 73).
• Unemployment rate is 6%, slightly higher than the US rate.
• Labor force participation rate is 59.1%, slightly lower than the US.
• These consumers are more concerned about cost rather than quality or brand loyalty.
• They tend to be somewhat late in adapting to technology.
• They obtain a disproportionate amount of their information from TV, compared to other media.
INCOME AND NET WORTH

Net worth measures total household assets (homes, vehicles, investments, etc.) less any debts, secured (e.g., mortgages) or unsecured (credit cards). Household income and net worth are estimated by Esri.

![Occupation by Earnings Chart]
WHO ARE WE?
Up and Coming Families is a market in transition—residents are younger and more mobile and ethnically diverse than the previous generation. They are ambitious, working hard to get ahead, and willing to take some risks to achieve their goals. The recession has impacted their financial well-being, but they are optimistic. Their homes are new; their families are young. And this is one of the fastest-growing markets in the country.

OUR NEIGHBORHOOD
• New suburban periphery: new families in new housing subdivisions.
• Building began in the housing boom of the 2000s and continues in this fast-growing market.
• Single-family homes with a median value of $194,400 and a lower vacancy rate.
• The price of affordable housing: longer commute times (Index 217).

SOCIOECONOMIC TRAITS
• Education: 67% have some college education or degree(s).
• Hard-working labor force with a participation rate of 71% (Index 114) and low unemployment at 4.6% (Index 84).
• Most households (61%) have 2 or more workers.
• Careful shoppers, aware of prices, willing to shop around for the best deals and open to influence by others’ opinions.
• Seek the latest and best in technology.
• Young families still feathering the nest and establishing their style.

Market Profile
- Rely on the Internet for entertainment, information, shopping, and banking.
- Prefer imported SUVs or compact cars, late models.
- Carry debt from credit card balances to student loans and mortgages, but also maintain retirement plans and make charitable contributions.
- Busy with work and family; use home and landscaping services to save time.
- Find leisure in family activities, movies at home, trips to theme parks or the zoo, and sports; from golfing, weight lifting, to taking a jog or run.

OCCUPATION BY EARNINGS
The five occupations with the highest number of workers in the market are displayed by median earnings. Data from the Census Bureau's American Community Survey.
WHO ARE WE?
Down the Road is a mix of low-density, semirural neighborhoods in large metropolitan areas; half are located in the South, with the rest chiefly in the West and Midwest. Almost half of householders live in mobile homes; more than two-fifths live in single-family homes. These are younger, diverse communities, with the highest proportion of American Indians of any segment. These family-oriented consumers value their traditions. Workers are in service, retail trade, manufacturing, and construction industries, with higher proportions in agriculture and mining, compared to the US. This market has higher unemployment, much lower median household income and home value, and more than a fifth of households with income below poverty level.

OUR NEIGHBORHOOD
• Nearly two-thirds of households are owned.
• Family market, primarily married couples or single-parent households (Index 145).
• Close to half of all households live in mobile homes (Index 780).
• Four-fifths of households were built in 1970 or later.
• About 32% of homes are valued under $50,000 (over 4 times the US percentage).

SOCIOECONOMIC TRAITS
• Education completed: 36% with a high school diploma only, 41% with some college education or a degree.
• Unemployment rate is 7.8%, higher than the US rate.
• Labor force participation rate is 59.0%, slightly lower than the US.
• Family-oriented, outgoing consumers; they place importance on preserving time-honored customs.
• They put a premium on convenience rather than health and nutrition.

Market Profile
- Purchased a used vehicle in the past year, likely maintaining the vehicle themselves.
- Routinely stop by the convenience store to purchase gas, lottery tickets, and snacks.
- Participate in fishing and hunting.
- Use the Internet to stay connected with friends and play online video games.
- Listen to the radio, especially at work, with a preference for rap, R&B, and country music.
- Enjoy programs on Investigation Discovery, CMT, and Hallmark, typically watching via satellite dish.
- Often prepare quick meals, using packaged or frozen dinner entrees.
- Favorite fast food: burgers and pizza.
- Frequent Walmart Supercenters, Walgreens, dollar stores, K-Marts, and Big Lots for all their shopping needs (groceries, clothing, pharmacy, etc.).

OCCUPATION BY EARNINGS

WHO ARE WE?
These neighborhoods are found in pastoral settings throughout the United States. Consumers are educated empty nesters living an active but modest lifestyle. Their focus is land. They are more likely to invest in real estate or a vacation home than stocks. They are active gardeners and partial to homegrown and home-cooked meals. Although retirement beckons, most of these residents still work, with incomes slightly above the US level.

OUR NEIGHBORHOOD
• Over 55% of households are married-couple families; 36% are couples with no children living at home.
• Average household size is slightly smaller at 2.44.
• Typical of areas with rustic appeal, the housing inventory features single-family homes (77%) and mobile homes (15%); a significant inventory of seasonal housing is available (Index 397).
• Residents live in small towns and rural communities throughout the West, South, and Northeast regions of the country.
• More than half of all homes were constructed between 1970 and 2000.
• Most households have one or two vehicles; average travel time to work is slightly higher (28 minutes) despite a disproportionate number that work from home (Index 149).

SOCIOECONOMIC TRAITS
• 60% have attended college or hold a degree.
• Unemployment is lower at 4.8% (Index 88), but so is labor force participation at 60%.
• Typical of neighborhoods with older residents, income from retirement and Social Security is common, but residents also derive income from self-employment and investments.
• Residents are very do-it-yourself oriented and cost conscious.
• Many service their own autos, work on home improvement and remodeling projects, and maintain their own yards.
• They prefer domestic travel to trips abroad.

WHO ARE WE?
The Green Acres lifestyle features country living and self-reliance. They are avid do-it-yourselfers, maintaining and remodeling their homes, with all the necessary power tools to accomplish the jobs. Gardening, especially growing vegetables, is also a priority, again with the right tools, tillers, tractors, and riding mowers. Outdoor living also features a variety of sports: hunting and fishing, motorcycling, hiking and camping, and even golf. Self-described conservatives, residents of Green Acres remain pessimistic about the near future yet are heavily invested in it.

OUR NEIGHBORHOOD
• Rural enclaves in metropolitan areas, primarily (not exclusively) older homes with acreage; new housing growth in the past 15 years.
• Single-family, owner-occupied housing, with a median value of $235,500.
• An older market, primarily married couples, most with no children.

SOCIOECONOMIC TRAITS
• Education: More than 60% are college educated.
• Unemployment is low at 3.8% (Index 70); labor force participation rate is high at 66.8% (Index 107).
• Income is derived not only from wages and salaries but also from self-employment (more than 13% of households), investments (27% of households), and increasingly, from retirement.
• They are cautious consumers with a focus on quality and durability.
• Comfortable with technology, more as a tool than a trend: banking or paying bills online is convenient; but the Internet is not viewed as entertainment.
• Economic outlook is professed as pessimistic, but consumers are comfortable with debt, primarily as home and auto loans, and investments.
